

We Fit Your Printing Challenges

Applied Engineering's talent, technology and adaptability will help you conquer your challenges.

Copy

Large Format

We handle large-format printing and scanning of all architectural documents, up to 36 inches wide.

Specification Books

We'll create high quality specification books with cover stock and comb binding, ready to ship with your bid sets.

Binding and Laminating

Applied will handle all of your laminating and binding needs. Use our large format laminating services to increase the durability of your job site or office copy.

Services

Digital or Paper

Securely send your digital files to Applied, or bring in paper originals. Our goal is make it convenient for you.

Bid Set Distribution

We'll distribute your roll and number sets, handling all of the address labeling and mailing bags, with daily UPS shipping.

Additional Bid Sets

We'll keep a digital copy of your originals to make additional sets as needed through your bid date.

Scan

Large format

Applied's large format and high speed scanning capabilities will reduce your paper clutter by converting your drawings to digital files.

Archiving

Applied will scan all of your large format drawings to an easy-to-use digital file, providing easy access for years to come.

Organizing

Applied can help you scan and organize old drawings as well as 2D and 3D design files. Your team can search, view and update files in a systematic way that increases productivity, and makes revision control easier.

Applied Engineering is the only firm with the talent and technology to fit your project, your process and your culture.

Stories of How We Fit

Testimonial

Our Company is pleased to provide a testimonial for Applied Engineering. *We've used Applied's copy service for a number of years, and they've always delivered accurate service.* Whether the project is copying large plan pages or multiple specification books we've never been dissatisfied. Their courteous and helpful staff have always been willing to go the "extra mile" to get our jobs done right and in a timely manner. We would not hesitate to recommend Applied Engineering to our associates and subcontractors.

Staff
Powers Construction Co.

Applied Engineering is our "Go To" printing company because we know that we can always count on quality documents, fast turnaround, and friendly service. They always go above and beyond the typical printer. For example, they check the files that we send them and confirm back with us when they see any irregularities or pieces that may be missing from the document... they've got our back!

Lee Dobrinz
JLG Architects

I have worked with Applied Engineering over the past three years for all of my printing and reprographics needs, and they are always professional and excellent to deal with. *Something that I have found is unique to Applied is their willingness to go above and beyond in order to make sure we are satisfied, whether that means staying late to fill an order, or simply calling to make sure the job is completed correctly.* I would highly recommend Applied Engineering.
